Bank of the  
People

## The Bank and the Home

The very word "Home" conjures to ones mind a picture of love, happiness, thrift and stability. The homing instinct in men and women typifies them as normal. The history of the world is built about the Home.

The Home represents the stable element of any community. One associates the Home with thrift, and thrift implies stability. All are factors that work toward the welfare of the community.

In your efforts to acquire a home let us impress upon you the necessity of thrift—the necessity of saving. This Bank prides itself on the many small accounts it carries for people who plan some day to invest their savings in a Home.

We will welcome your account, however small it may be.
